

Cherokee Nation Code Annotated

Title 10A: Cherokee Nation Juvenile Code

Article 2

Chapter 2: Custody and Court Proceedings

§ 2-2-108. Examination by health care professionals--Investigation of child's home and custodian's earning capacity

Cite as: 10A CNCA § 2-2-108

A. After a petition under the provisions of this article has been filed, the court may order the child to be examined and evaluated for medical issues, including behavioral health diagnoses, by a physician or other appropriate professional to aid the court in making the proper disposition concerning the child.

B. Whenever a child concerning whom a petition has been filed appears to be in need of nursing, medical or surgical care, the court may order the parent or other person responsible for the care and support of the child to provide such care in a hospital or otherwise. If the parent or other person fails to provide such care, the court may, after due notice, enter an order therefor, and the expense thereof, when approved by the court, shall be a charge upon the county, but the court may adjudge that the person having the duty under the law to support the child pay part or all of the expenses of such care. In an emergency the court may, when health or condition of the child may require it, cause the child to be placed in a public hospital or institution for treatment or special care, or in a private hospital or institution which will receive the child for like purpose, and consent to emergency treatment or surgery.
