

Cherokee Nation Code Annotated

Title 27: Environmental Quality

Chapter 9: Water Quality Code

§ 931. Wastewater treatment or sewer systems

Cite as: 27 CNCA § 931

A. No person shall construct or let a contract for any construction work of any nature for a municipal treatment works, nonindustrial wastewater treatment system, sanitary sewer system or other sewage treatment works, or for any extension thereof, or make any change in the manner of nonindustrial wastewater treatment or make any change in the treatment, storage, use or disposal of sewage sludge without a permit issued by the Commission.

B. No permit shall be required for the construction or modification of a private individual sewage disposal system provided that such system is constructed or modified in accordance with other applicable requirements of the Nation.

C. An application for such permit shall include, but not be limited to, an engineering report, legal description of the site where the works or system is or is proposed to be located, and a legal description of the site where any discharge point is or is proposed to be located.

D. Upon approval of the engineering report, the applicant shall submit plans and specifications for the proposed system or the proposed extension or change of an existing system for review. Such plans and specifications shall be prepared by a professional engineer licensed to practice in the state of Oklahoma.
